

# Moonbeams

Guitar Solo

Bill Tyers

*Andante*

*right hand simile*

## Practice Suggestions

This piece is a study study for the right hand with emphasis on **Rest Stroke** technique

1. Right hand fingering should be consistent throughout.
2. Rest stroke should be used with right hand m i pattern which will enable the melody in the top part to stand out from the bass accompaniment played by the thumb.
3. Tempo should be steady and not rushed. Andante suggests a walking tempo.
